About me

Front-end developer focused on building fast, accessible, and visually consistent web applications. Experienced with React, Next.js, and Firebase, combining technical foundations with design and user experience awareness.

Skills

- JavaScript / TypeScript
- React / Next.js / Vite
- Firebase (Auth, Firestore, Storage)
- Deployment & Hosting (Vercel, Netlify, Cloudflare, Firebase Hosting)
- UI/UX Design (Figma, Tailwind, Shadcn/UI)
- Git / Agile / CI/CD
- Basic DevSecOps & GCP knowledge

Professional Experience

COSMIND IT · Software Engineer — Jun 2024 – Present

Development of high-performance web applications with Next.js and Vite. Built responsive UIs with React/TypeScript, integrated APIs, and improved UX/UI consistency.

Axelia Cybersecurity · Full Stack Developer & Cybersecurity Intern — Jun 2025 – Aug 2025

Supported security-focused development. Implemented API security, CI/CD automation, dashboards, and vulnerability assessments.

A3 Sports · Full Stack Developer (Freelance) — Aug 2023 – Mar 2024

Developed analytics dashboards, integrated YouTube API, and optimized UX and performance.

Education
